

## **GRAPHIC LUSTRE PHOTO RC PAPER**

IGXPP11 (270gsm)

ILFORD GALERIE GRAPHIC Lustre Photo RC Paper is a heavy weight premium photographic quality inkjet paper incorporating a nanoporous coating with a bright white tint. The product is designed for high end photo printing, to be instant dry to touch and to offer excellent image quality.

The premium quality 11mil base offers unbeatable print rigidity, free from cockling, making it easier to handle when laminating or mounting. Suitable for printing photographic images, exhibition panels and other graphics on many different printer types with rapid dry times, GALERIE GRAPHIC Lustre Photo RC Paper can save time and materials.

### **FEATURES**

- Optimised for high speed printing
- Fast drying
- Bright white tint
- Full pigment ink compatibility
- Excellent imaging performance

### **LAMINATION**

Although touch-dry straight out of the printer, it is recommended that prints be left to dry fully before laminating. As with other aqueous ink jet papers, 24 hours dry time should be allowed for consistent results. GALERIE GRAPHIC Lustre Photo RC Paper has an instant-dry nanoporous ink receiving layer. As with all other nanoporous ink jet papers, lamination of the image is recommended for optimum print life.

### **PRINTER & INK COMPATIBILITY**

Designed for use with most wide format inkjet printer systems using either aqueous pigment inks from major manufacturers.

### **AVAILABILITY**

GALERIE GRAPHIC Lustre Photo RC Paper available in selected roll widths, up to 44" (111.8cm).

### **PHYSICAL PROPERTIES (TARGET VALUES)**

Weight	270gsm
Opacity	>98%
Caliper	275micron (11mil)
Tint (CIE L*a*b*)	95.8, 2.4, -8.4
Gloss (60°)	20%

### **ENVIRONMENTAL CONDITIONS**

Operating	15°C-25°C (59°F-77°F), 30-70% RH non-condensing
